

CotY

(Contractor of the Year)

Awards Program

Local CotY deadline: Monday, November 1, 2010 – 5 p.m.

Submit to: NARI of Central Ohio
285 N. State Street, Suite 102, Westerville, OH 43081

**Complete guide to the
Central Ohio Chapter of the
National Association of the Remodeling Industry's
2010 CotY Program**

This program mirrors the National NARI CotY Awards Program.
Be sure to check the National entry guidelines for compliance as
some new procedures are taking place.

National Entry deadline: December 1st, 2010

CotY Awards 2010

NARI of Central Ohio

NARI members across the nation are invited to compete for the prestigious 2010 NARI CotY Awards in recognition of their achievements for remodeling projects finished between July 1, 2009 and November 30, 2010.

Each year NARI has both first-time entrants and seasoned participants that go home with Local, Regional and National Awards. No matter what your CotY experience level, follow these easy steps to be sure your entry is given full consideration by the judges and your work receives the recognition it deserves. There were many changes to the 2009 CotY program, so please review these pages carefully.

Why You Should Enter

Companies – from one-person shops to the largest remodeling firms – report that winning this award is a major factor in enhancing their image within the industry and with prospective customers, and is a major morale booster for their employees. The numerous marketing opportunities available to CotY winners help set your business apart from other remodeling companies, and NARI helps by providing tools and resources to make the most of this distinguished honor.

About Photographs

Since your project cannot be judged in person, good quality photos are key elements in your presentation. Whether or not you use a professional photographer, it's good to keep a few things in mind:

- Take “before” photographs before the start of every project. If you make this a standard practice, you will be ready when the job you anticipated to be an average remodel turns out to be a National CotY contender. Take these shots from many angles. Take photos for work-in progress if it will help show the complexity of the process or the obstacles encountered.
- Avoid using before photos with the kids, the family dog, site workers, etc. These elements are a distraction from the transformation you are trying to convey. Also, we legally can't use photos with individuals in them without proper release on file. Therefore, these photos will not be chosen for display on the Wall of Fame (when you win!), or for publication by NARI or other media partners.
- Don't provide photographs that reveal the identity of the client or your company. Entries displaying company name, logo, etc. will be subject to point deductions.
- Take the “after” shots from the same angles as the before photos whenever possible. This helps give the judges a good perspective of the transformation. We also need related pairs (the before and after) for print and publication.
- Take both vertical and horizontal photos. If your project is published, it stands a better chance of being featured on a magazine cover if the editors have vertical shots from which to choose.
- Provide the project photos displayed in your entry on a CD and submit with the other required documents. Photos on this CD must be high resolution (300 dpi or better), and in JPG, TIFF, or EPS format. Larger photos give us more flexibility since we can always make them smaller. We may not be able to make them larger without losing quality. This CD will not be returned.
- Only include photos that will enhance the project entry. Although you have 15 pages, front and back, to display the project, you don't need to use them all.

Preparing a Winning Entry

Your ability to present your project in a manner that helps judges distinguish your project will go a long way to set you apart from the competition. The following tips from judges and staff are provided as guidelines, and are derived from feedback from recent program years:

- Plan your entry. A winner’s entry is always well thought out. Arrange your photos, drawings, project descriptions, etc., in a way that’s easy to follow from the beginning to the end of the project.
- Describe the client’s needs/wants, and be sure your entry shows how you met those needs. Point out any obstacles and how they were handled. A concise project description at the front of the entry can help the judges understand what you were trying to accomplish, laying the groundwork for the project before they get into the detail.
- Avoid filling up your entry pages with too many words. Include only details that will help the judges determine why your project deserves high marks.
- When displaying photographs, show the before and after photos on facing pages whenever possible, so the judges don’t have to flip back and forth over and over.
- Small captions near photos can help tell the project story.

Team Entries

NARI is aware that the efforts of several companies may be needed to complete a remodeling project, and would like to recognize all member companies that participated. When a CotY project is entered as a Team Entry, all NARI member companies involved (suppliers, services providers, etc.) can enter as one team and receive the recognition together for a **Important!** entry fee. The main contractor on the project (having supervision and control) is considered the lead entrant and should fill out the first page of the entry form. All participating team members need to fill out and sign the team entry portion of the form. Remember, NARI recognizes member companies in the CotY competition. Individual members of the same company do not need to enter as a team. All members of a winning team receive the same award and recognition as the team leader.

Pay Attention to the Requirements

Each year several entries receive point deductions (two points per violation), or worse, are disqualified, due to not adhering to a few simple rules. Here’s what happened last year:

<u>Disqualified Entries</u>	<u># Entries</u>	<u>Point Deductions</u>	<u># Entries</u>
Entry received after December 1 (national deadline)	9	Project cost not shown on first page of entry	50
Duplicate entry	3	Missing CotY logo cover page	4
Project completion date outside of time frame	4	Missing contractor/homeowner/witness signature	10
Project does not contain any before photos	1	Missing photo release form	2
		Missing project completion date	4
		Missing second set of photos	6
		Over page limit	5
		Member identity revealed in entry	1

Regional CotY winners often edge out the competition by just one point. Don’t let a two-point deduction place another entry ahead of yours. Careful review of the following pages and double-checking the forms for accuracy and completeness will keep you off the violation list.

The Judging Process

Winners are selected by an impartial panel of judges who are experts from within the industry. The evaluation process is done without revealing company names. A National Contractor of the Year (CotY) Award Winner is an entry that demonstrates remodeling excellence. Entries are judged on functionality, problem solving, aesthetics, craftsmanship, innovation, degree of difficulty and entry presentation.

All entries are judged against other submissions from the same region in the same category to select Regional Winners. All regional winning entries are then re-judged to select the National Winner in each category. On rare occasions, no winner is selected in a particular category if NARI standards are not met, judges are not required to present Regional or National Awards in every category, and the decision of the judges is final. The following guidelines to evaluate each entry:

- **Regional Judging**

A group of judges begins by individually comparing all the entries in a category within a region. They may take a preliminary review of that group of entries, and then score the entries one by one, using the judge's ballot provided. They do not discuss the entries during this phase of the process, and they do not see other judge's score sheets. Once a category within a region is completed, the ballots are collected and tallied. A regional score for each entry is obtained by averaging the judge's scores. The highest average score obtained, providing the project represents at least a "better than average approach or result," determines the Regional Winner for each category. The process continues until all of the categories are judged on the Regional level.

- **National Judging**

The judges will look at each of the Regional Winners within a category to determine a National Winner. During this phase of the process no score sheets are used, and the previous score sheets are not made available for reference. The judges discuss the projects, each of them sharing their opinions. As a group they decide on the National Winner for each category.

The following criteria are some of the points the judges will be considering when reviewing each entry. This criteria set may be modified as necessary.

All Categories

- **To what degree were the expressed needs of the client met?** Did the entry describe the client's needs and desires? Did the contractor show that those needs were met?
- **To what degree does the project enhance the existing structures functionally?** Do the room's new floor plans function well? Is the counter space or work area adequate to perform necessary tasks? Is there good traffic flow? Is safety addressed adequately? Are the materials functional? Is lighting addressed – both general & task?
- **To what degree does the project enhance the existing structure aesthetically?** Keep in mind the following design criteria: Line & rhythm, continuity & repetition, texture, color & contrast, symmetry & balance?
- **Is there evidence of superior craftsmanship?** Moldings, woodwork, stairs, cabinetry, countertops, tile, glass, marble, metal, stone, masonry, other?
- **Were innovative uses of material and/or methods of construction used in the project?** Are innovative uses evident, or were any described and noted?

- **Did the contractor overcome difficult obstacles?** Were difficult obstacles encountered as described by the contractor and overcome in a creative way?

The following will also be considered for the Residential Historic Renovation/Restoration Category

- **Were original uses of materials duplicated in the project?**
- **Were methods of application used to improve or enhance the original style of the structure?**

CotY 2010 Rules & Guidelines

NARI of Central Ohio provides binders for the local entries – they can be used for the National entry as well. Call NARI of Central Ohio (614) 895-3080 for your local CotY entry binder.

- 1) NARI contractor members in good standing are eligible for individual entries or as a team leader for a fee of \$150 per project. This fee includes the cost of returning your binder after judging. All entry fees are nonrefundable, non-transferable, and cannot be carried over to subsequent years.
- 2) Team entries are permitted in each project category. All team members must be NARI members and need to fill out and sign the team entry section of the Entry Form. A fee of \$75.00 applies to each team member per project. Trophies are awarded to each team member if project is selected as a winner.
- 3) Project finish date must be between July 1, 2009 and November 30, 2010. Only entries that have never been submitted in prior NARI CotY contests are eligible.
- 4) All projects entered in CotY categories must be an improvement or addition to an existing structure. Entries for new structures will not be accepted **except where specifically noted**.
- 5) **Completed entries must be received at NARI of Central Ohio by 5pm on Monday November 1st, 2010.** Send or deliver entries to: NARI of Central Ohio, 285 N. State Street, Suite 102, Westerville, OH 43081.
- 6) The same project may only be entered in one category. If you have a large, multi-area project, and would like to enter just a portion of it, it's fine to break it down. For example, if your project included the remodel of an entire house, you can enter an Entire House category OR enter a kitchen category, an interior category, and two bathroom categories, etc. Keep in mind you will have to break out costs for each project on each entry form. If you enter your project in this way, you will not be able to enter any of the same remodeled areas again.
- 7) The first plastic sleeve in the entry is for the entry materials and will be removed upon arrival at NARI. This first sleeve must include:
 - a) **Entry Form** – and Team Entrant section, if applicable. This form needs to be completed, signed by the homeowner and contractor, and the contractor's signature needs to be notarized.
 - b) **Photographer's Release** – The owner of the photographs (professional photographer, contractor, homeowner, etc.) must complete and sign this form. Use more than one release if necessary. This form must be witnessed and cannot be altered.
 - c) **Manufacturers, Suppliers, and Brands** – This information is very important. Just check off the National member companies (products or services) you used on this project.
 - d) **Duplicate set of photos** – Include a CD of duplicate photos of those shown in your binder. Use high resolution (300 dpi or better), and in JPG, TIFF, or EPS format. Please include the project photos that were displayed in your binder.
- 8) The remainder of your entry can be presented in up to 15 pages front and back, or 30 pages, one-sided.
 - a) The first page of the presentation must include the total project cost in the upper right corner. This total must match the total on the Entry Form, Homeowners Affidavit section. Cost is defined as contract price, all extras, change orders and the fair market value of materials and products that were purchased, sweat-equity and in-kind services provided, and/or any subcontract work.
 - b) If you are including drawings that will not fit into a sleeve, insert them into the back pocket of the binder. They should not extend over the top or side of the binder, and will count as one page (one sleeve, front and back) of your total page count.

- c) Your name and/or company name cannot be visible on these pages.
- d) The entry must include “before” photos.
- e) Video and audio tapes cannot be accepted.

CotY Awards Categories

Please review these category descriptions carefully.

1. Residential Kitchen Under \$40,000

Best residential kitchen remodel with a total project cost* of under \$40,000. Only interior photos may be used.

2. Residential Kitchen \$40,000 to \$80,000

Best residential kitchen remodel with a total project cost* of \$40,000 to \$80,000. Only interior photos may be used.

3. Residential Kitchen \$80,001 to \$120,000

Best residential kitchen remodel with a total project cost* of \$80,001 to \$100,000. Only interior photos may be used.

4. Residential Kitchen Over \$120,000

Best residential kitchen remodel with a total project cost* of over \$100,000. Use only interior photos.

5. Residential Bath Under \$30,000

Best residential bath remodel with a total project cost* under \$30,000. Only interior photos may be used.

6. Residential Bath \$30,000 to \$60,000

Best residential bath remodel with a total project cost* of \$30,000 to \$60,000. Only interior photos may be used.

7. Residential Bath Over \$60,000

Best residential bath remodel with a total project cost* over \$60,000. Only interior photos may be used.

8. Residential Interior Under \$100,000

Best residential interior remodel with a project cost* under \$100,000. Includes, but is not limited to, such projects as family or recreation room remodeling, attic or basement conversions, etc. Work must be done within the existing walls of a residential structure. This category does not include room additions. Only interior photos may be used.

9. Residential Interior \$100,000 and Over

Best residential interior remodel with a project cost* of \$100,000 and over. Only interior photos may be used. Refer to Category 8 description.

10. Residential Interior Specialty

This category represents a special interior element of a project. It includes, but is not limited to projects such as railings and columns; brick, stone and masonry work;

tiling; air conditioning and heating; fireplaces; vestibules; insulation; kitchen hoods; glass block; wall finishes such as plaster; flooring; best use of lighting or lighting control systems, or home automation. Work must have been done to the interior of an existing residential structure, and only interior photos may be used. The residential interior specialty must be specified in the entry materials and in the descriptive text in order to qualify.

11. Residential Addition Under \$100,000

Best residential addition with a project cost* under \$100,000. Includes, but is not limited to, additions, add-a-levels, or attic build-outs, which increases livable space of the existing home. The project cannot have changed the exterior footprint or elevations of the existing residential structure in more than one location. Interior and exterior photos may be used.

12. Residential Addition \$100,000 to \$250,000

Best residential addition with a total project cost* of \$100,000 to \$250,000. Refer to category 11 description.

13. Residential Addition Over \$250,000

Best residential addition with a project cost* over \$250,000. Refer to category 11 description.

14. Residential Exterior Under \$100,000

Best exterior project with a cost* under \$100,000. Includes, but is not limited to, alterations to the exterior of a residential building such as porticos, porches, decks, the exterior of glass or screen enclosures, windows, dormers, and exterior resurfacings like siding, stucco, etc. which enhances the overall appearance of the exterior. Only exterior photographs may be used.

15. Residential Exterior \$100,000 and Over

Best exterior project with a cost* of \$100,000 and over. Only exterior photographs may be used. Refer to category 14 description.

16. Residential Exterior Specialty

This category represents a special exterior element of a project. It includes, but is not limited to such projects as decks, columns, pagodas, trellises, arbors, fences and gates, patios and terraces, driveways, walkways, retaining walls, other masonry elements, fountains and water features, swimming pools and spas, best use of

lighting control systems, or outdoor lighting. Also included may be detached structures such as garages, pool houses, studios, guesthouses, sheds, gazebos, pavilions, etc. Only exterior photos may be used. The residential exterior specialty must be specified in the entry materials and in the descriptive text in order to qualify.

17. Entire House Under \$250,000

A project, with a cost* under \$250,000, that remodeled or renovated a substantial portion of the entire residential house, inside and outside, or where multiple additions and/or style changes in footprint or elevation have been made in more than one location. The entry must include a description of the portions of the existing structure that were incorporated into the finished project. Pictures and plans submitted with the entry must highlight those portions of the home retained in the new design.

18. Entire House \$250,000 to \$500,000

Refer to category 17 description.

19. Entire House \$500,001 to \$1,000,000

Refer to category 17 description.

20. Entire House Over \$1,000,000

Refer to category 17 description.

21. Residential Historical Renovation/Restoration

The renovation/restoration of the interior and/or exterior of a residential structure, or addition to a residential structure, built prior to 1935. Any and all changes are to have closely matched architectural style and building type. Any and all products used are to be of a material authentic in style to the area in which the building was originally built, paying special attention to period trim detail and period coloring. Restoration of missing historic features and added structures are to respect the essential historic character and architectural style of original building design.

22. Residential Universal Design

The residential universal design category will consider changes in residences that make them usable by people of all ages and physical capabilities. Projects can include, but are not limited to, accessible entrances, modified floor plans, barrier-free kitchens and baths, and

use of "smart home" technology. Emphasis will be on using products and design to create invisible solutions that blend with the surroundings. Clearly indicate both the problem and solution to the accessibility problem for evaluation of stated goals.

23. Commercial Interior

Remodeling performed within the existing walls of a previously occupied commercial space. Clearly define the type of client and the client's needs in the project description. Only interior photos may be used.

24. Commercial Exterior

Remodeling performed on the exterior of an existing commercial structure. Clearly define the type of client and the client's needs in the project description. Only exterior photos may be used.

25. Commercial Specialty

Includes, but is not limited to, such projects or operations as cosmetic facelift; siding, roofing, insulation; window, door; railing, columns, brick, stone, masonry work; tiling; solar panels; air conditioning, heating; gutters and leaders, etc. Work must have been done to an existing commercial structure. Clearly define the type of client and the client's needs in the project description. The commercial specialty must be included on your entry form and in the descriptive text to qualify.

26. Home Theater & Media Rooms Under \$150,000

A remodeled Home Theater or Media Room space within a house, with a cost* under \$150,000, which serves as a home theater or media room that may include entertainment or game room areas. The space can be a remodel of an existing room, an addition or an attic conversion. The space must incorporate audio & video equipment and a designated viewing area. A/V equipment can be built-in or free standing. Interior views only if the space is an addition.

27. Home Theater & Media Rooms \$150,000 and Over

A remodeled Home Theater or Media Room space within a house with a cost* of \$150,000 or more. Refer to category 26 description.

*Cost is defined as contract price, all extras, change orders and the fair market value of materials and products that were purchased, sweat-equity and in-kind services provided, and/or any subcontract work.

Photographer's Release

The following release must be completed by the photographer

Being the legal owner of the photographs taken of the premises at _____

(project address)

for the 2010 NARI Contractor of the Year (CotY) Awards competition, I hereby consent to and authorize the National Association of the Remodeling Industry and its agents and/or its assigns to photograph, use, print, reprint, and publish any and all of my photographs and reproductions thereof. These photographs may be reproduced in any print or electronic medium (now existing or hereafter developed). I further consent that the photography taken by me and submitted as part of this entry, with or without accompanying editorial matter, may be used for the purpose of promoting the National Association of the Remodeling Industry (NARI) and its programs and services, without limitation, in any publications, displays and exhibitions. I understand that photo credit may be included only if credit name is made a part of the photo.

I hereby release NARI and its agents from any and all liability arising out of or in connection with any use of the photographs. In consideration of the foregoing, NARI agrees to deliver to me upon request, two copies of the issue of the NARI publication in which the photographs are first published.

The undersigned represents that it has received an authorization/consent and release from the owner of the premises.
