Don't Leave Money on the Table!

The National Association of the Remodeling Industry (NARI) partners with CareWorksComp (formerly Frank Gates Service Company) because they deliver the most significant cost savings and provide unmatched expertise to our members. CareWorksComp embraces a results-oriented approach that fully integrates safety prevention and risk control with aggressive claims management to provide a sizeable return on investment.

In today's economy no organization can afford to leave dollars on the table. We can assist your company in determining your best possible BWC premium discount options. Here are some of the programs available that may help your company save on their premiums:

- **Group Rating** – Allows employers operating similar businesses to group together to achieve lower premium rates than they could individually. For every \$1 spent in fees to participate in CareWorksComp group rating programs, the average participant saved \$11.00 in workers' compensation premiums - a 1000 percent return on investment.
- **Group Retrospective Rating** – Is a performance driven employer program. Participants receive premium refunds based on accident prevention and claims costs control. CareWorksComp has more Ohio businesses saving money in group retrospective rating programs than any other Third Party Administrator.
- **Destination Excellence** – Is comprised of several programs, including: Industry-Specific Safety Program, Safety Council, Drug-Free Safety Program, Transitional Work Grant as well as Performance Bonus, Go Green and Lapse Free. Some of these programs are compatible with each other and allow employers to "stack" multiple discounts. The One Claim Program and the 100% Cap Program are also cost-savings options available to employers.

In addition to premium savings, CareWorksComp provides comprehensive program administration including; claims management, hearing representation, unemployment consultation, risk management and safety programming and consultation and information technology.

Put our team to work for you and find out how our dedicated and professional staff can make a difference for your company. For a no-cost, no-obligation program analysis, take five minutes and do one of the following:

Sign the attached BWC Temporary Authorization form and fax it to 888.837.3288
