

HOME IMPROVEMENT TOUR

A driving tour of 7 newly remodeled homes

Saturday, October 2, 10 am-5 pm & Sunday, October 3, Noon-5 pm

Tickets available at www.trustnari.org or cash only at each location.

\$10 full tour / \$3 single site

1: 6800 Pine Hollow Drive
Westerville 43082

Project by: J.S. Brown & Co.

A typical oak kitchen was transformed into a light and airy showstopper. High gloss European-style cabinets and a beautiful glass mosaic create a stunning contemporary vibe.

2: 406 Keisel Court

Powell 43065

Project by: Organized Home Remodeling

Gorgeous kitchen transformation as well as remodeling of the entire first floor.

3: 178 E. Selby Boulevard

Worthington 43085

Project by: Dave Fox Design Build Remodelers

Whole house remodel plus an addition to add more living space.

4: 3151 Redding Road

Upper Arlington 43221

Project by: The Cleary Company

Existing space was tight on counter space and storage and lacked proper lighting. A removed wall and reconfigured layout provides a more functional design and takes advantage of natural light.

5: 2632 Tremont Road

Upper Arlington 43221

Project by: The Cleary Company

Updates throughout this 1930's two-story Tudor include an entire first floor remodel, new basement, and a second story bathroom.

6: 2290 Andover Road

Upper Arlington 43221

Project by: Element One

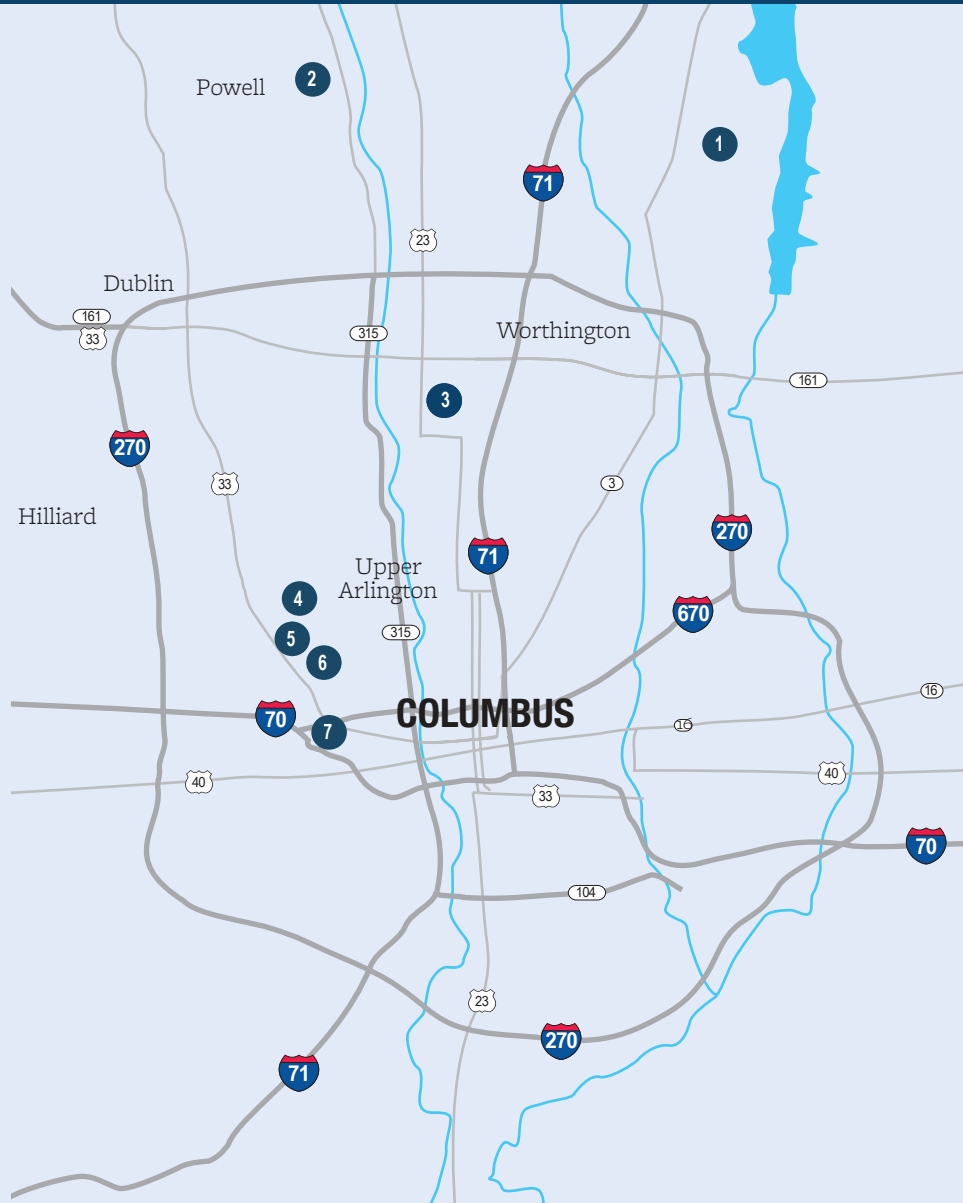

The kitchen expansion features holiday wreath green custom cabinets with oak accents. Cambria quartz covers the countertops and backsplash while a built-in banquette joins the kitchen with a dry bar in the dining area.

7: 1315 Cambridge Boulevard

Columbus 43212

Project by: Haus Studio Designs

The first impression of the original kitchen was confining, lackluster and stale. By removing a wall a spacious destination was created full of glitz, glamour, and intrigue.
